

# Incident Management Team Mobilizations

In 2019, National Incident Management Organization (NIMO) teams were assigned to five wildfire incidents and one support assignment for a total of 75 days. For the second consecutive year, no Area Command teams were assigned to incidents in 2019.

## IMT Requests Processed by NICC – 2019 and Prior Years

Fires deemed as significant include any incidents that have either a Type 1 or Type 2 IMT assigned. Thus, in maintaining certain data about the nation's significant fires, NICC also has some information that generally quantifies the annual usage of IMTs nationwide, and that data is presented in additional sections below. Another indicator of IMT activity is the movement of IMTs between Geographic Areas, which generally requires the requests to be processed through NICC. While this NICC resource request data for IMTs does not quantify their total use nationwide, it is an indicator of the demand for IMTs due to numerous and/or lengthy incidents in some Geographic Areas that required them to order IMTs from other areas. Conversely, those Geographic Areas that were able to fulfill such requests for out-of-area assignments often had relatively few significant fires internally, thereby allowing them to send their IMTs to assist busier GACCs.

Following are tables and charts pertaining to such requests processed by NICC to mobilize IMTs from one Geographic Area to another. Additional information that depicts the total usage of Type 1 and Type 2 IMTs is provided in subsequent sections of this document.

## Type 1 Incident Management Team Mobilizations

Sixteen national Type 1 Incident Management Teams were available in 2019. Type 1 Teams mobilized to 14 assignments. Of these assignments, 12 were to wildland fires and 2 were to non-wildland fire incidents. A total of four of these Type 1 Team assignments were mobilized through NICC. Type 1 teams were assigned a combined total of 183 days in 2019, down from 475 assignment days in 2018. The record was set in 2002 when Type 1 Teams were assigned 85 times for a total of 999 days.

## Type 1 IMT Assignments by Geographic Area

The following charts show the mobilization of Type 1 Incident Management Teams by the Geographic Area that requested them (incident GACC) and the Geographic Area that filled the request (sending GACC, which is typically the same as the Team's sponsoring GACC).

## Type 2 Incident Management Team Mobilizations

Of the 44 total Type 2 Incident Management Team assignments in 2019, four were filled through NICC. Teams were assigned a total of 480 days in 2019, down from 1,403 days assigned in 2018. The following charts and tables summarize total requests by agency and Geographic Area.

## Type 2 IMT Assignments by Geographic Area

The following charts show the mobilization of Type 2 Incident Management Teams by the Geographic Area that requested them (incident GACC) and the Geographic Area that filled the request (sending GACC, which is typically the same as the Team's sponsoring GACC).

## Department of Defense Mobilizations

In 2019, NICC received no requests for military battalions or task forces mobilized by the Department of Defense for wildfire suppression. The number of military battalions and task forces requested through NICC and deployed in the last ten years is shown below.

## Crew Mobilizations

The NICC received 752 crew requests in 2019. Of these requests, 614 were filled, 46 requests were canceled, and 92 were UTF. There were 336 Type 1 crew requests, 142 Type 2 crew requests and 274 Type 2 IA crew requests placed to NICC.

# Engine and Tactical Water Tender Mobilizations

The NICC received 949 engine requests in 2019. Of these requests, 789 were filled, 64 were canceled and 96 were UTF. There were 13 requests placed to NICC for tactical water tenders, of which 11 were filled, two canceled, and zero UTF.

# Overhead Mobilizations

A total of 7,769 requests for overhead positions were received by NICC in 2019. Of these requests, 6,545 were filled, 524 were canceled and 700 were UTF. The charts below show total overhead requests filled annually through NICC, plus distribution of 2019's requests.

# Fixed Wing Aircraft Mobilizations

The categories for fixed wing aircraft requests include: heavy airtankers, multi engine airtanker (CL-215/415), single engine airtankers (SEAT), lead planes, aerial supervision modules (ASM), air attack, infrared, and smokejumper aircraft. A total of 1,450 fixed wing requests were received at NICC in 2019: 1,106 were filled, 89 were canceled and 255 were UTF.

## Airtanker Mobilizations

For heavy airtankers, a total of 438 VLAT, Type 1 and Type 2 large airtanker requests were received by NICC in 2019. Of that total, 308 requests were filled, 41 were canceled and 89 were UTF. The NICC received no requests for MAFFS in 2019.

For SEATs and Type 3 Multi-Engine airtankers, NICC received 78 requests in 2019, of which 64 were filled, 6 were canceled and 8 were UTF.

Note: Changes in the way airtanker requests are processed in ROSS, as well as the number of airtankers available for fire suppression account for much of the increase from 2013 - 2018.

## Modular Airborne Fire Fighting Systems (MAFFS)
